

Math Lesson Planner

Learning Goal: What concept/skill am I targeting today?

Getting Started: How am I going to activate prior knowledge?

Main Task/Working On it: What are the students going to investigate?

Anticipate: What might students do during the main task/working on it?

Strategy 1	Strategy 2	Strategy 3

Possible Misconceptions:

Monitor: What prompts will I use when I am observing students?

Enable:

Extend:

Prompt for Misconception:

Sequence: Which order will you share student work? (decide while students are working)

Strategy: Names:	Strategy: Names:	Strategy: Names:
---	---	---

Connect: Make explicit links between approaches to **consolidate** the learning goal.

Exit Ticket/Differentiated Purposeful Practice: Do students understand the learning goal? Have they consolidated this learning?
